

# PRE CONFERENCE EDUCATION FORUM

## ‘Learning & Teaching in Orthoptics & Ophthalmology’

**Helsinki, Finland**

**June 5<sup>th</sup> 2019 (10.00-12.00)**

[www.esa2019.org/scientific-information/pre-conference-courses](http://www.esa2019.org/scientific-information/pre-conference-courses)

The OCE education committee was founded in April 2015 as a new branch on the OCE tree with the aim of providing a forum for European Orthoptic and Ophthalmic Educators to discuss relevant education issues. The forum will provide a unique opportunity to discuss and share good practice across ophthalmic education.

We invite all those attending the ESA Congress who are currently involved or interested in the education of orthoptic students, residents, medical students or other ophthalmic personnel to attend.

The forum comprises of:

Part 1: Invited experts in the field of education in orthoptics/ophthalmology

Part 2: Free paper session on educational best practice or research. **DEADLINE for abstract submission**

**(extended to) 28<sup>th</sup> Feb 2019.** Abstract submission details at:  
[www.esa2019.org/scientific-information/pre-conference-courses](http://www.esa2019.org/scientific-information/pre-conference-courses)

## Programme

### Welcome

Agneta Rydberg (OCE  
Education Committee)

### Invited Speakers

What do students consider  
the most effective way for  
their teachers to motivate  
them?

Jesca van Petegem-  
Hellemans, MA  
University of Applied  
Sciences, Netherlands

How to critically read a  
scientific paper  
Elina Karvonen, MD  
Helsinki University  
Hospital, Finland
